

**CAUTION** Battery products  
charger le produit regulierement !

## <1> Installation steps:

1. installer le panneau solaire de maniere a ce qu'il soit expose au soleil au maximum
2. installer le projecteur

3. Connecter le panneau solaire au projecteur

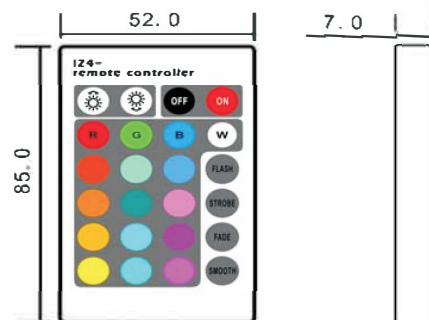

## <2> Telecommande:

### description fonction telecommande: (table 2)

| Symbols | Key Name           | allume ou eteint le projecteur  |                    |  |                  |  |                                      |
|---------|--------------------|---|--------------------|--|------------------|--|--------------------------------------|
|         | OFF/ON             |   |                    |  |                  |  |                                      |
|         | BRT+/BRT-          | <b>When the colorful effect can press this key to realize stepless dimming;</b> |                    |  |                  |  |                                      |
|         | Static red         |   | Static Green       |  | Static blue      |  | Static White                         |
|         | Static Orange      |   | Static Light Green |  | Static dark blue |  | Multi-function effects selection key |
|         | Static dark yellow |   | Static Cyan        |  | Static Pink      |  | Speed+                               |
|         | Static yellow      |   | Static light Blue  |  | Static purple    |  | Speed-                               |
|         | Static Pale yellow |   | Static Sky Blue    |  | Static Magenta   |  | Seven-color gradient                 |

### Configuration telecommande: (figure 1)

### APPENDIX: Dynamic Model Description: (table 3)

| Patterns | Pattern description   |
|----------|---|
| FLASH    | Multi-function effects selection key  |
| STROBE   | Speed+  |
| FADE     | Speed-  |
| SMOOTH   | Seven color gradient: Red → yellow → green → Cyan → blue → purple and white |
